

AmCham China Forums and Committees

AmCham China's Forums and Committees are the lifeblood of our advocacy, industry relations, and community development. We have Forums and Committees focusing on industry sectors, corporate functions, and special issue-based interests that well represent American businesses operating in China as well as the active membership of our community. Forums and Committees allow members to:

- Use AmCham China as a platform to drive foreign companies and industry-based advocacy efforts
- Hold dialogues with regulators and industry stakeholders to influence the business environment
- Share information and ideas specific to their industries
- Meet like-minded people for professional development
- Generate contacts for business development

If you are interested in joining any of our **Forums and Committees**, please contact the corresponding member of staff listed below.
