Debriefing Events (Closed-door) – invite industry experts and officials to explain new policies and discuss topical issues with members.

Member Delegation Visits to provincial governments for direct exchange of ideas on specific issues.

Between 2016-2020, the Healthcare Committee submitted 21 advocacy letters to relevant government authorities, with significant progress achieved.

In 2017, the Healthcare Committee won the Chamber's *President's Award for Advocacy*.

In addition to the Healthcare Committee, AmCham China also oversees the **US-China Healthcare Cooperation Program (HCP)**. Established in 2011 as a US-China Public Private Partnership on a healthcare framework during the Summit between US President Barack Obama and Chinese President Hu Jintao, the HCP is a collaborative initiative to build closer working relations between the two governments while leveraging healthcare industry strengths. Other aims include fostering long-term cooperation with China in the areas of public health, policy research, training, R&D, technology, and supporting the Chinese government's goal of enhancing patients' access to healthcare services in China.
