

TIANJIN'S MANUFACTURING AND SUSTAINABILITY COMMITTEE

The AmCham China Tianjin's Manufacturing and Sustainability Committee's 2022 strategic plan is grouped around three types of activities: Advocacy, Business, and Community (ABCs).

Committee Priorities: **Advocacy-High** **Business-Medium** (information sharing) **Community-Low** (networking)

MISSION

To increase knowledge of world-class best practices in manufacturing and sustainability industries in Tianjin, the Manufacturing & Sustainability Committee supports AmCham China Tianjin in its China-US government relations efforts that impact manufacturing, supply chain and sustainability. It provides a platform for creating thought leadership and sharing best practices in manufacturing, supply chain management and sustainability. Benchmarks range from sourcing and supplier management, policy compliance, logistics, technology innovation, e-commerce to other emerging issues and trends.

MAIN ACTIVITIES

- Committee members help **draft the Manufacturing Chapter** in our AmCham China *White Paper*.
- Help collect manufacturing members' common requests or problems and deliver their messages, suggestions, and feedback to **relevant government department** for solutions.
- Regular **Debriefing Events** showcase industry experts and officials to explain new policies and hot issues for members at these closed-door events.
- Series of **company tours** to network with other industry experts and catch up on the latest developments in the area.

LEADERSHIP

Co-Chair:

Marcus Williams,
Boeing Tianjin
Composites Co., Ltd.

Supporting Staff: Linda Cheng
Email: lcheng@amchamchina.org

2022 COMMITTEE STRATEGIC FOCUS

Advocacy (A) High Priority	Business (B) Medium Priority	Community (C) Low Priority
<p>Government Access:</p> <p>Advocacy to both city level and regional governments, with a focus on member requires and voices</p>	<p>Events:</p> <p>Regular professional seminars or events on industry hot topics plus at least two company tours one year</p>	<p>Branding:</p> <p>Invite members to get involved in relevant events as speakers to understand and promote their business</p>

Partnerships: To grow the Committee's membership and deepen the impact of advocacy, we hope to cooperate with major government departments such as environmental protection bureau, industry and information technology bureau, and so on. We will also build relationships with member consulting firms (World Resources Institute, TEDA Eco Center, etc.)
