

TIANJIN'S MANUFACTURING AND SUSTAINABILITY COMMITTEE

The AmCham China Tianjin's Manufacturing and Sustainability Committee's 2023 strategic plan is grouped around three types of activities: *Advocacy, Business, and Community (ABCs)*.

Committee Priorities:

Advocacy-High

Business-Low (information sharing)

Community-Medium (networking)

Mission

To increase knowledge of world-class best practices in manufacturing and sustainability industries in Tianjin, the Manufacturing & Sustainability Committee supports AmCham China, Tianjin in its China-US government relations efforts that impact manufacturing, supply chain and sustainability. It provides a platform for creating thought leadership and sharing best practices in manufacturing, supply chain ESG management and sustainability. Benchmarks range from sourcing and supplier management, policy compliance, ESG, logistics, technology innovation, e-commerce to other emerging issues and trends.

Main Activities

Committee members help draft the Manufacturing Chapter in our AmCham China *White Paper*.

Help collect manufacturing members' common requests or problems and deliver their messages, suggestions, and feedback to relevant government department for solutions.

Regular Debriefing Events showcase industry experts and officials to explain new policies and hot issues for members at these closed-door events.

Series of company tours to network with other industry experts and catch up on the latest developments in the area.

Past Activities

Apr 7, 2022: Kick off mixer

Jun 6, 2022: Risk and Punishment Relief of Enterprise Environmental Management

Jun 23, 2022: Typical Risks in Supply Chain logistics under the COVID-19
