

TIANJIN'S MANUFACTURING AND SUSTAINABILITY COMMITTEE

The AmCham China Tianjin's Manufacturing and Sustainability Committee's 2025 strategic plan is grouped around three types of activities: *Advocacy, Business, and Community (ABCs)*.

Committee Priorities:

Advocacy-High

Business-Low (information sharing)

Community-Medium (networking)

Mission

To increase knowledge of world-class best practices in manufacturing and sustainability industries in Tianjin, the Manufacturing & Sustainability Committee supports AmCham China, Tianjin in its China-US government relations efforts that impact manufacturing, supply chain and sustainability. It provides a platform for creating thought leadership and sharing best practices in manufacturing, supply chain management and sustainability. Benchmarks range from sourcing and supplier management, policy compliance, ESG, logistics, technology innovation, e-commerce to other emerging issues and trends.

Main Activities

Draft Manufacturing Chapter in our yearly *White Paper*

Meetings with Chinese government on policy interpretation

Roundtable with The U.S. Embassy for insights exchange

Integration between Industry and Education

Workshop on topics related to production and operation

Factory tour for mutual learning and exchange

Up-to-date professional training

Collaboration with AmCham other committees
